

I started working at Christ the King in March 2017 as a cleaner. I got this chance through a friend and when I came for the interview, I was selected as one of the cleaners at Christ The King.

I like working at CTK and I love my job very much. I like the environment and the people around me, they are very friendly and God fearing. Despite the fact that it is in the slums, we are well protected because we have good security.

Since I work within the church compound, I have the chance to talk to the priest or the catechist about my faith affairs. Also I have time to go to the chapel for prayers and this has helped me to grow spiritually.

Juliet Atieno
Hygiene Department

I thank God for Christ The King They provided me with a job and now I am able to put daily bread on the table for my family. God bless our Parish. Am blessed.

We always work in unity and love. As Christians and one family of God, we work as a team. This is what gives me peace of mind and am always at the comfort zone, Is like my another home.

It doesn't matter where you are now, what matters is where you are going. Never loose hope in every thing that you do. Trust in the Lord always and he will guide thy pathway.

I Count you blessings one by one and I am surprised to what the Lord has done in my life. God bless you all.

My message to the community:

"Like what you have and do it passionately"
